## Objective

---

I am a highly skilled and results-oriented software developer with expertise in PHP Laravel and .NET Core Angular technologies. With a proven track record of delivering high-quality web applications, I bring a strong foundation in both back-end and front-end development. My experience includes collaborating with cross-functional teams to gather requirements, design scalable solutions, and implement robust code. Proficient in database management, RESTful API development, and version control using Git, I am dedicated to producing efficient and maintainable code. I thrive in dynamic and challenging environments, and my problem-solving skills, combined with a commitment to best development practices, make me a valuable asset to any project. Whether working independently or as part of a team, I am passionate about creating innovative and user-friendly software solutions that meet and exceed client expectations.

## Experience

---

- xymax technologies** 1-6-2020 - 5-3-2021  
php laravel developer  
As a PHP Laravel Developer at Xymax Company, I played a key role in development and implementing robust web applications. Collaborating with a talented team, I contributed to the development of scalable solutions using PHP Laravel, ensuring high-performance and seamless user experiences. My responsibilities included database management, API development, and active participation in code reviews to maintain code quality and adherence to industry standards.
- Brain Art Marketing** 10-3-2021 - 29-12-2021  
Web Developer  
I took on the role of a Web Developer, where I was responsible for creating and maintaining dynamic websites. Utilizing a diverse skill set, including .NET Core and Angular, I contributed to the development of interactive and visually appealing web solutions. Working closely with the marketing team, I translated design concepts into functional websites, ensuring a seamless integration of front-end and back-end components. My role also involved troubleshooting and resolving issues promptly to optimize website performance.
- GagaMuller Technologies** 9-1-2022 - 2-12-2023  
Web Developer  
In my role at Gagamuller Technology, I served as a proficient .NET and Angular developer, contributing significantly to projects for Unilever and other company products such as Rewire and Wayloader. Working on Unilever projects, I played a pivotal role in the development and implementation of scalable solutions using .NET technologies. Additionally, my responsibilities extended to Angular development, ensuring the creation of dynamic and responsive front-end components. My involvement in projects like Rewire and Wayloader showcased my ability to deliver high-quality software solutions for diverse applications, demonstrating versatility and expertise in the .NET and Angular development stack.

## Education

---

- fg sirsyed college the mall Rawalpindi** 2016  
fsc pre engineering  
A+
- Uet Taxila** 2021  
Bscs  
2.83

## Skills

---

- Programming Languages: PHP, C#
- Web Technologies: Laravel, .NET Core web api, Angular
- Front-End Technologies: HTML5, CSS3, Bootstrap
- Database Management: MySQL, SQL Server
- Version Control: Git
- Software Development Methodologies: Agile/Scrum
- Troubleshooting and Debugging

- RESTful API
- JavaScript
- typescript
