

### **Node.js Development:**

Expertise in building scalable, high-performance server-side applications using Node.js.

Proficient in creating APIs, real-time applications, and micro services for diverse use cases.

### **React.js Development with Material-UI (MUI) & Style Id:**

Proficient in creating modern and visually appealing user interfaces using React.js.

Expertise in leveraging Material-UI for consistent and polished UI components.

### **REST API Development and Testing with POSTMAN:**

Skilled in building robust and efficient APIs for seamless communication between front-end and back-end.

Proficient in API testing and documentation using POSTMAN for reliable API functionality.

### **Database Management:**

Extensive experience in working with both SQL and NoSQL databases, including MongoDB, MySQL, and PostgreSQL.

Proficient in designing, implementing, and optimizing database schemas for efficient data storage and retrieval.

### **Design:**

Specialized in creating websites and applications that adapt seamlessly to various screen sizes and devices.

Ensuring an optimal user experience across desktop, tablet, and mobile platforms.

### **Quality Assurance and Testing:**

Expertise in conducting thorough testing and quality assurance processes to identify and rectify bugs and issues.

Implementing testing methodologies to ensure robust and error-free applications.

Designing:

**Proficient in UI/UX design** principles, creating visually appealing and intuitive user interfaces.

### **Code Structure and Optimization:**

Ensuring clean, well-organized, and maintainable code for efficient development and future scalability.

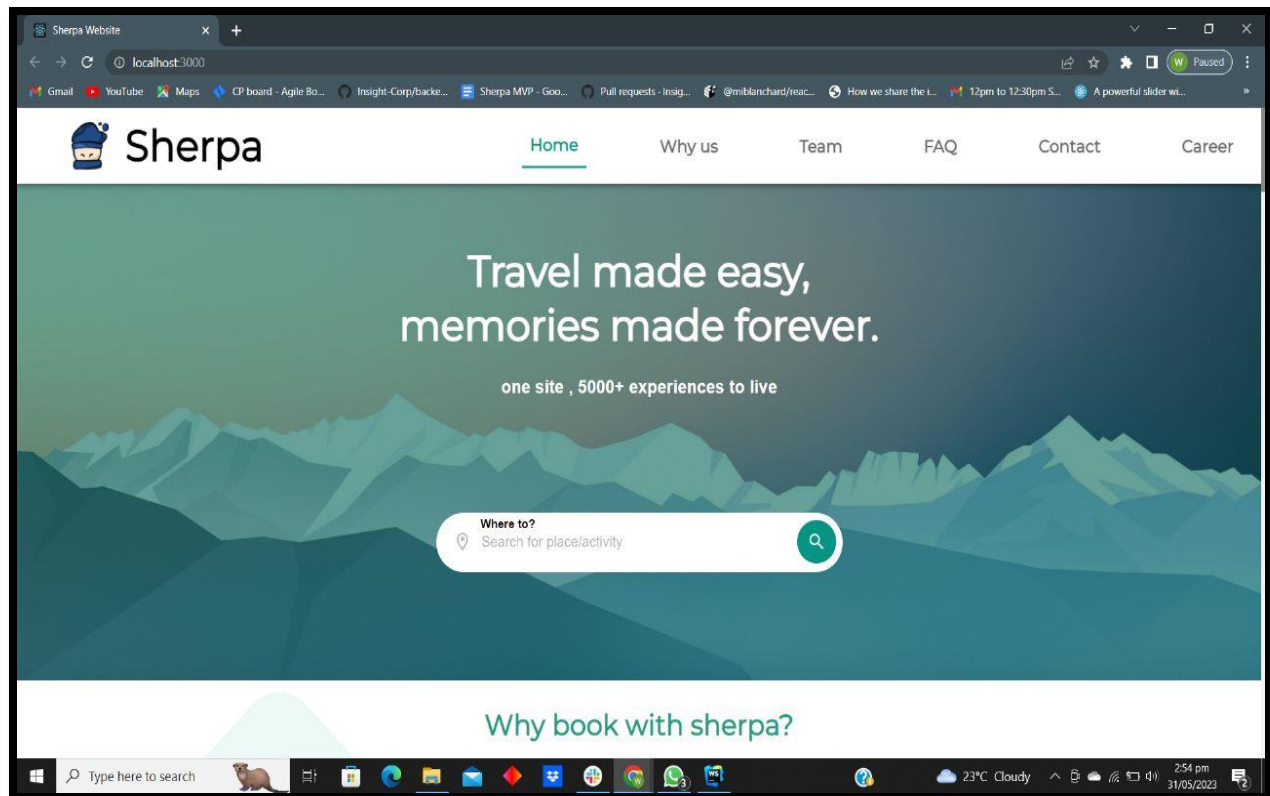

## Projects

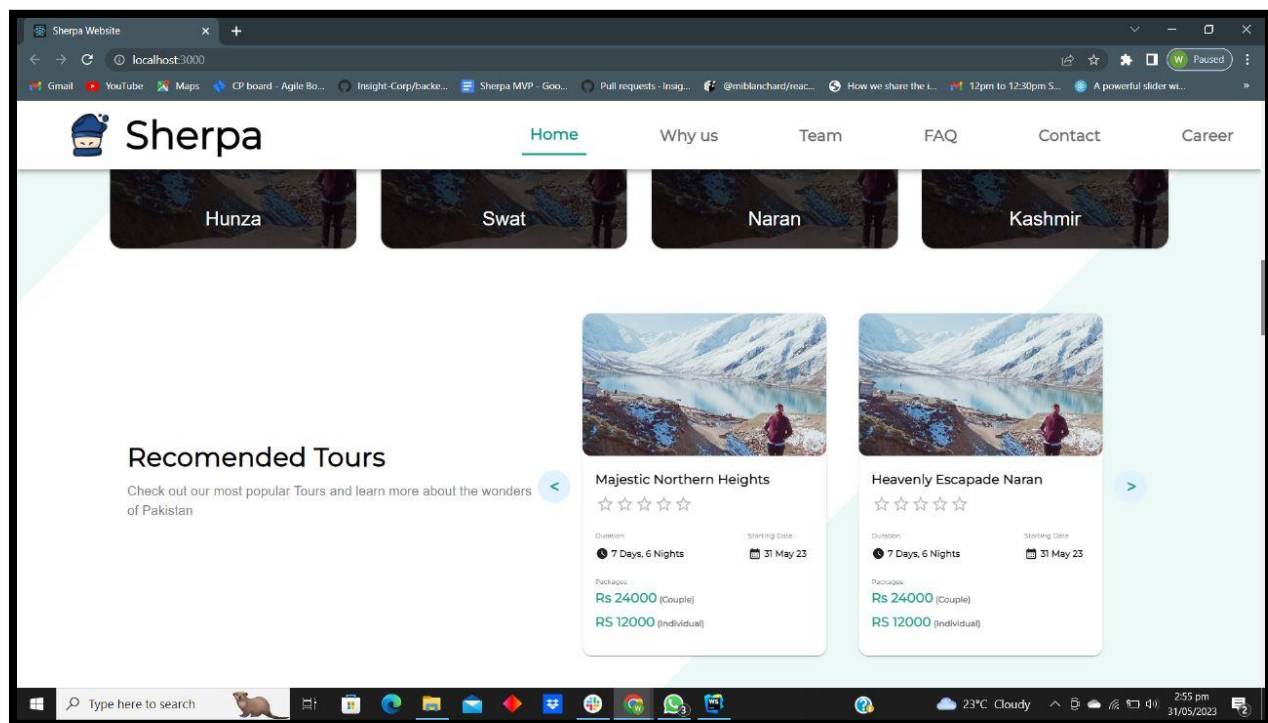

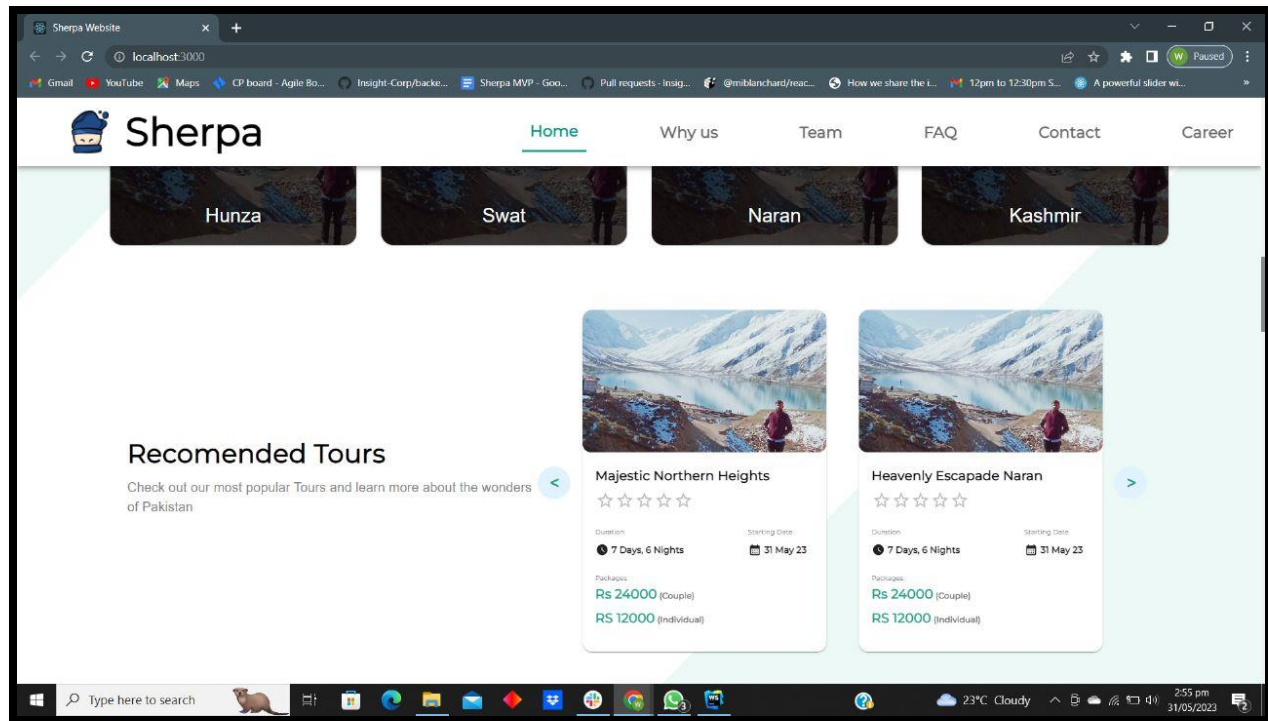

### **Trip Management System**

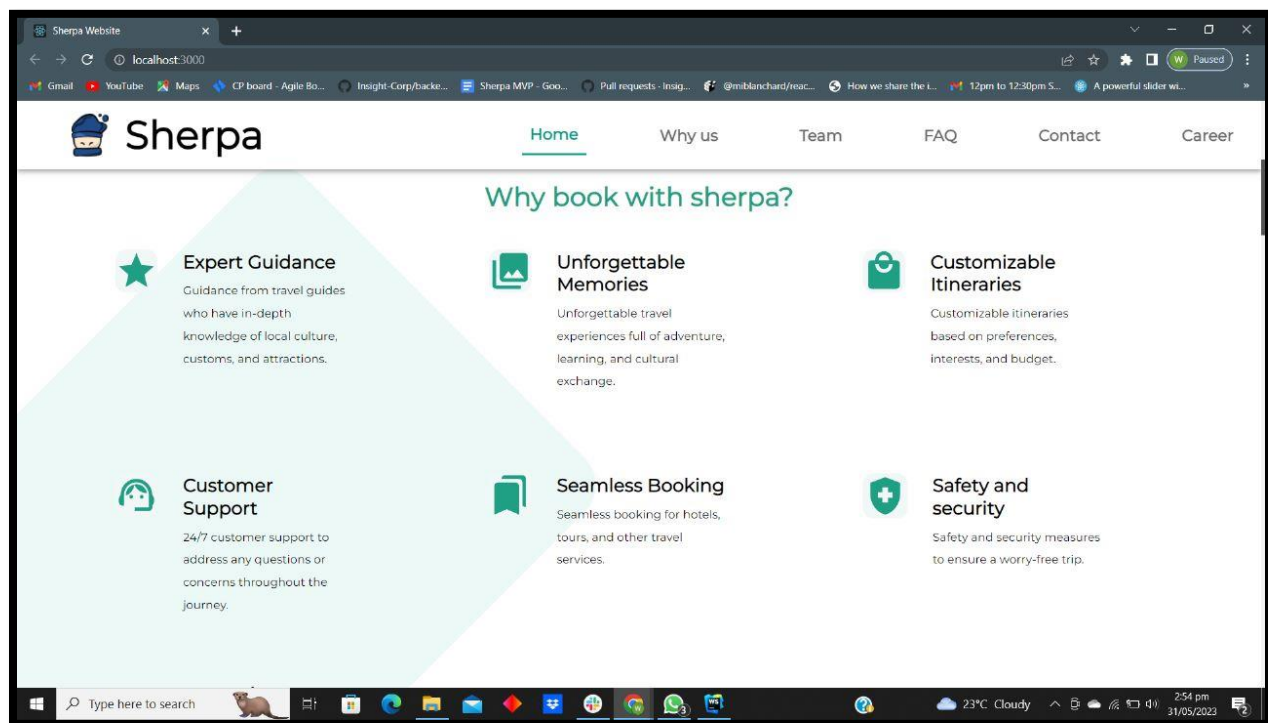

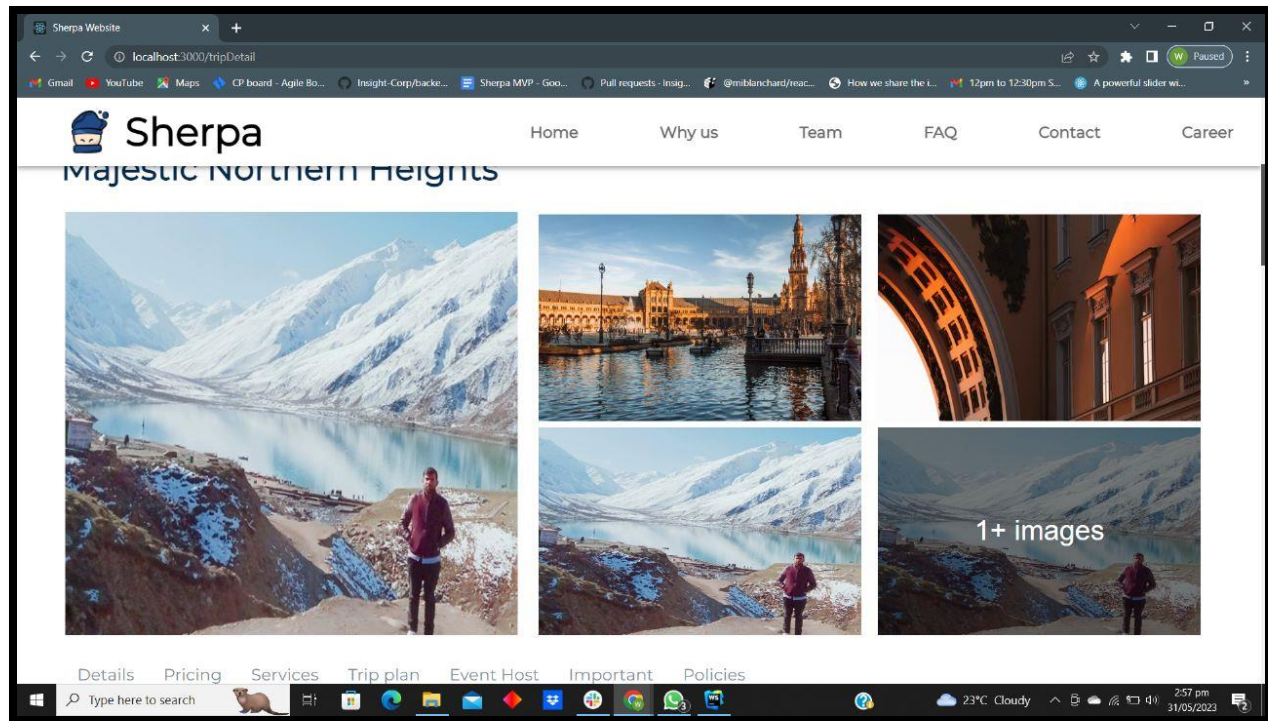

**Objective:** Developed a comprehensive Trip Management System to streamline the process of planning, organizing, and executing trips for individuals and groups.

#### **Key Features:**

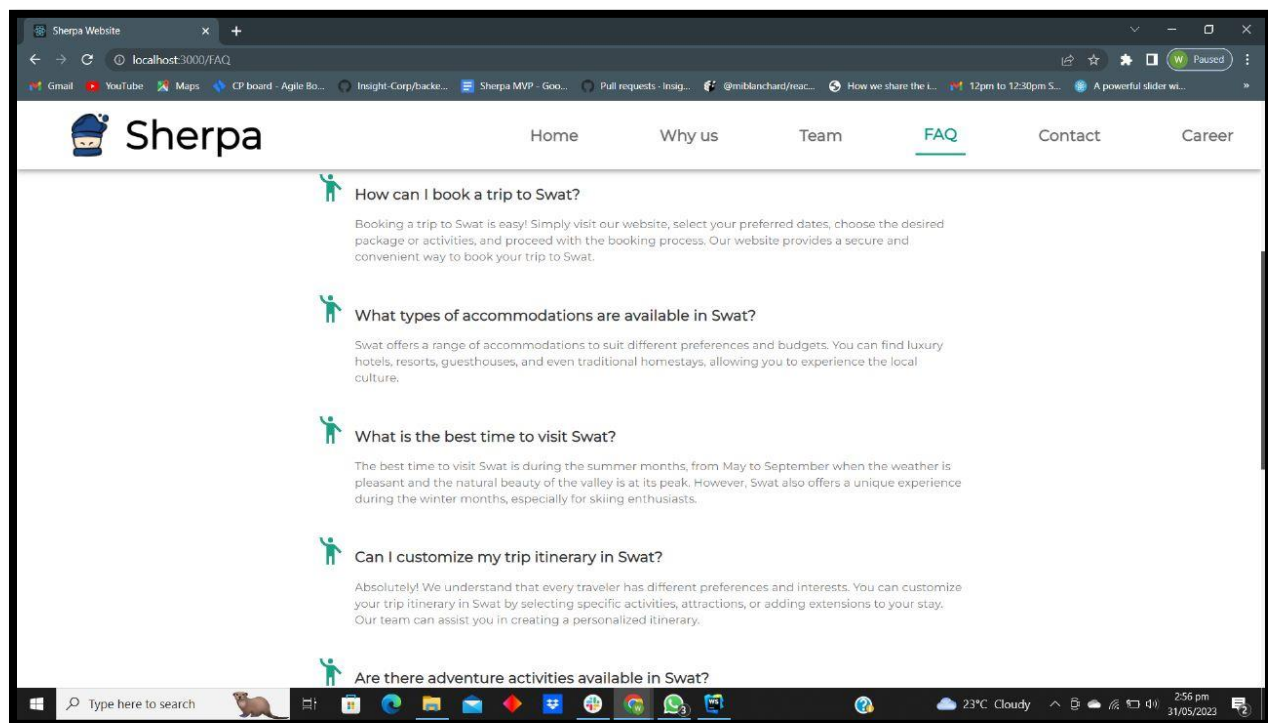

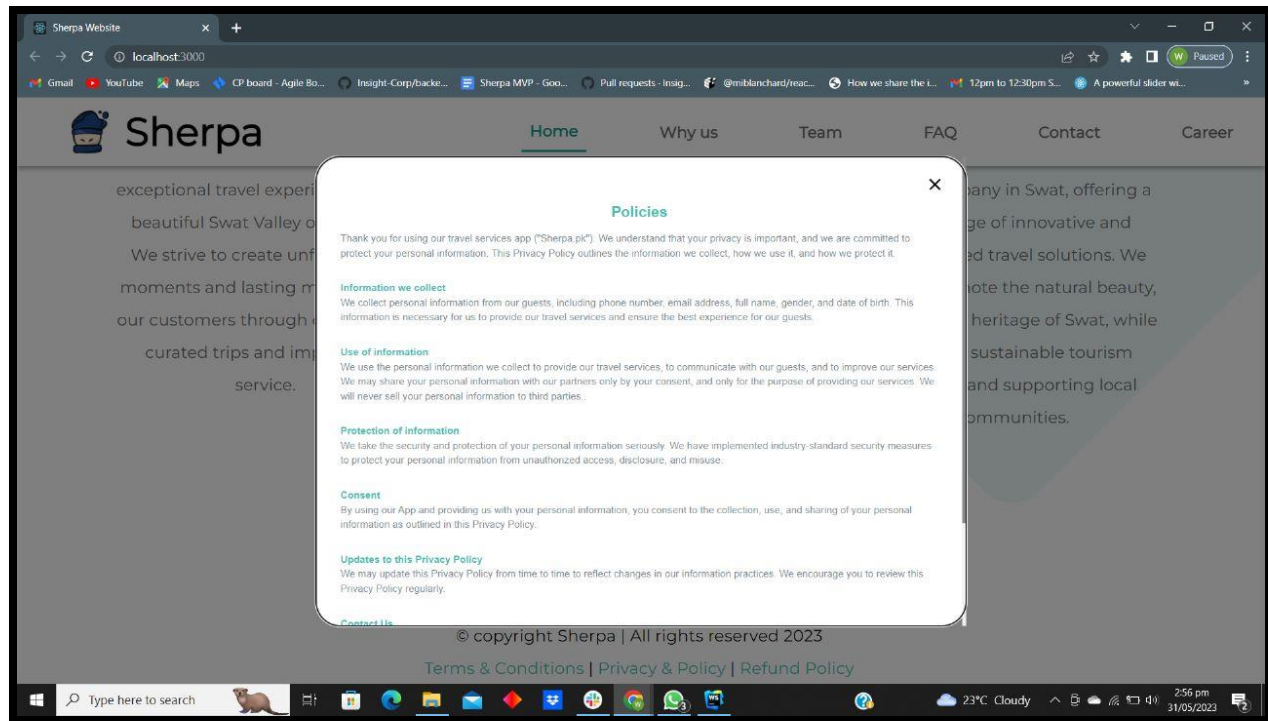

- ✓ User authentication and authorization for secure access.
- ✓ Trip creation, itinerary planning, and expense tracking.
- ✓ Integration with for route planning and navigation.
- ✓ Real-time updates and notifications for trip participants.
